Abstract

Some abstract part of your thesis

Chapter 1

Introduction

The first chapter of a well-structured thesis is always an introduction, setting the scene with background, problem description, objectives, limitations, and then looking ahead to summarize what is in the rest of the report. This is the part that readers look at first—*so make sure it hooks them!*

1.1 Background

In this section, you should present the problem that you are going to investigate or analyze; why this problem is of interest; what has, so far, been done to solve the problem, and which parts of the problem that remain. Remember to cite stuff Fowler [2003], and use acronyms like Software as a Service (SaaS) and SaaS

List of Acronyms and Abbreviations

SaaS   Software as a Service.
